OFFICE OF STUDENT LIFE

Dear Westminster Students:

Your health and safety continue to be our number one priority during-the ongoing COVID-19 situation. I want to reassure you that campus will remain open, with previously scheduled office closures on Thursday and Friday, March 19-20, of the upcoming spring break. We are strongly encouraging students to stay apprised of the latest travel recommendations from the CDC and to complete the MyWC survey, indicating your travel plans. The survey is solely for communication and to best support you at this time as we continue to monitor the latest health and travel recommendations.

At this time, the campus and residence halls will remain open, as we know some of our students choose to stay on campus during the break. Additionally, students who absolutely must return to campus during the online instruction period will be supported. Furthermore, we understand that you may have additional needs adjusting to online learning, so please stay in contact with your professors, your academic advisors, the IT staff, and other support resources on campus.

We also understand the stress and anxiety that this situation may be causing you, the Westminster community, as well as our global society. It is essential that you continue to implement healthy self-care strategies, follow health guidelines, and utilize your campus and social support services. As a friendly reminder, if you are concerned that you may have contracted COVID-19, please contact the 24-hour Missouri hotline at 1-877-435-8411, or call your local health department or doctor.

I am incredibly honored to be a part of the Westminster community and know that we will continue to do our best to support each other during this time. Please keep checking your email and updates on our website at www.wcmo.edu, and do not hesitate to email me, call my office at (573) 592-5269, or reach out to the Wellness Center at (573) 592-5361 if you have any questions or concerns.
